### DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims do not clearly point out and distinctly claim the subject matter. The claims recite that the mask grows only on the projections of the substrate or first layer. The next step recites growth of the nitride compound in the recess portions of the of the substrate or layer and on the masks. It is unclear to one of ordinary skill in the art as to where the growth of the first layer is to be preformed, only iin the recesses or over the entire structure including the mask layers. Claraification and/or correctionis required,
